

## Notice to our Members regarding COVID-19

As government and health officials have encouraged our communities to take preventative steps for the well-being of our families and neighbors, we have made the decision to adjust our in-person services.

**Starting Saturday, March 21st, we are temporarily suspending lobby services. Both our drive-up lanes will be available during regular hours, which can be accessed by car and pedestrians. (For member safety we ask pedestrians to utilize the drive-up lane closest to the building. We also ask drivers to be alert and approach the drive-up lanes with caution.)**

Our staff will be here to answer your calls. We will also offer appointments for member services (New Accounts, IRAs, HSAs, etc.) and Loans. Simply give us a call and let us know when you would like to come in.

Please take advantage of the many options available for our members to take care of credit union business without entering the lobby.

Our online and mobile banking allows you to view account activity and make account transfers 24/7. You can also deposit your checks with our Remote Deposit Capture. Simply take a picture of the check with your phone.

As always, you can use your debit card to withdrawal cash from any US Bank ATM with no fee.

Our night deposit allows you to drop off your cash or checks for processing first thing each morning.

By enacting proactive and preventative health measures, we can better protect our staff and members from the virus.
